The main features:

A set of three schuko type sockets with current circuit protection and a quick USB charger built in a pop-up desk socket case. This device can be integrated in the surface of office desks, conference or kitchen tables. Its cable is 1.5m long. If you press the device, it will automatically pull the sockets out. All you need for installation is an opening in the surface of the desk or table, the diameter of which is 10cm. This desk socket set is made of plastic and stainless steel.

Technical specifications:
