Pliers for the heating/ plumbing trade

All plumbing, heating and air conditioning professionals use a wide range of tools in their everyday work. The one they reach for most frequently are pliers, because they can be used universally for diverse jobs. KNIPEX pliers have been improved by numerous advances, thereby enabling the professional to work quickly, easily and safely. The best example is our classic, the KNIPEX Cobra®. One of our innovations is the Cobra® Quick-Set. According to the motto "Fully open, push, grab!", it substantially speeds up the screwing process. The locking part engages securely as soon as the tool is under load, so that you can start unscrewing.

The KNIPEX pliers wrench has been designed for work on quality screw connections made of brass, gunmetal or stainless steel or on chrome-plated fittings. It combines pliers and an open end wrench in one tool. There are six different sizes of pliers wrenches in the basic version for gripping wrench openings of up to 85 mm or 3 3/8".

The KNIPEX X-Cut® diagonal cutters have shown themselves to be an all-rounder that can be used to effortlessly cut anything from fine copper strand through to hard piano wire. When installing panel heating, the innovative pipe cutter for composite and protective pipes is the ideal tool.

Discover these and other pliers from our range for the heating/plumbing trade.

SYMBOLS

	flat jaws		with lead catcher		electrostatic discharging, dissipative		soft wire
	half-round jaws		angle		electronics		medium hard wire
	round jaws		weight		VDE-tested, also in compliance with GPSG		hard wire
	flat and pointed jaws		length		insulated according to IEC 60900, usable up to 1000 V AC / 1500 V DC		piano wire
	box-joint		centre cutter		conforms to a European directive		Cu + Al-multi-conductor cable, solid and multi-stranded
	bolted joint		cutting edges with bevel		mechanically tested		wire rope
	smooth gripping surfaces		cutting edges with small bevel		WEEE marking (Waste Electrical and Electronic equipment Directive)		iron
	knurled gripping surfaces		cutting edges with very small bevel		steel wire armoured cable (SWA)		
	cross-hatched, knurled gripping surfaces		cutting edges without bevel				
	with opening spring		for flush cut of soft materials

Automatic Insulation Stripper

12 52 195

Faster, easier and more precise: cuts copper, brass and stainless steel pipes

QuickLock one-hand locking mechanism: slide on, cut – finished!

Easy one-handed pushing for quick adjustment to different tube sizes

Comfortable: easy cutting due to high-quality needle bearings in the cutting wheel and guide rolls

- > Cuts pipes from Ø 6 - 35 mm (1/4" - 1 3/8") with wall thickness up to 2 mm
- > Cutting wheel made of high-grade ball-bearing steel
- > Practical quick replace system for the cutting wheel – with spare wheel stored under the feeding barrel
- > With precision-ground deburring tool, easy to remove
- > For the electric trade: Also suitable to cut rigid steel conduits
- > Light and durable metal enclosure of magnesium

For cutting copper, brass, stainless steel pipes and rigid steel conduits with wall thickness up to 2 mm and diameters of 6-35 mm (1/4" - 1 3/8")

← The overall length does not change during operation →

90 31 02

NEW
PAT. PEND.

The needle-bearing and spring-loaded cutting wheel made of high-quality ball-bearing steel is easily exchangeable

The spring-loaded cutting wheel can be pushed and fixed on the diameter of the pipe with the one-hand locking mechanism

Speed in everyday operation: the QuickLock one-hand locking mechanism enables the cutting wheel to slide onto any pipe diameter with a single press of the thumb

High-quality needle bearings enable the cutting wheel and the four guide rollers to operate virtually without any friction during the cutting – cuts stainless steel pipes with particular ease

Four steps to success – how the KNIPEX TubiX® pipe cutter helps you in your work

1 Cutting now made easy: position the opened KNIPEX TubiX® ...

2 Push the cutting wheel against the pipe with the QuickLock one-hand locking mechanism: fastest adjustment to different pipe diameters ...

3 Tighten and cut with a swift twist and then readjust using the ergonomic blue feeding barrel ...

4 And you're done! If necessary, have the edge smoothed out using the fold-out deburring tool – with surprisingly little effort

KNIPEX TubiX® Pipe Cutter

Faster, easier and more precise cutting

QuickLock one-hand locking mechanism:

Precise positioning,
independent holding
and clamping on
the tube

KNIPEX Cobra® XS

Only 100 mm in length:
anything but a toy!

The slim head provides firm grip even in tight spaces

Gripping capacity
Ø 28 mm

Work with only one hand: open, slide in, it fits!

Grips like a big tool: The smallest water pump pliers in the world with full functional capability

Optimum access in the narrowest spaces: an especially compact design with a very slim head

Single-handed fine adjustment by sliding for optimal fitting to various workpiece sizes

Long-lasting secure grip ensured by high wear resistance

- > Gripping capacity Ø 28 mm (1"), width across flats up to 24 mm – at only 100 mm length
- > Box joint: high quality and durability provided by dual guide
- > Gripping surfaces with specially hardened teeth, hardness approx. 60 HRC
- > Self-locking on pipes and nuts: no slipping on the workpiece and low handforce required
- > Pinch guard prevents operators' fingers being pinched
- > Fine adjustment with 11 adjustment positions
- > DIN ISO 8976

Now optimised: Less weight, more performance, with a larger opening width and a practical laser-cut adjustment scale

Higher capacity: Continuous gripping in all wrench sizes up to 68 mm (maximum 2 1/2") with use of two additional adjustment positions

Noticeably less weight, 80 grams lighter with the same stability

Practical adjustment scale: A laser-cut (metric and imperial) enables pre-setting to the width across flats

- > Replaces a whole set of spanners – metric and imperial
- > Smooth jaws for damage-free installation of plated fittings - working directly on chrome!
- > Reliable catching of the hinge bolt: no unintentional shifting
- > Lever transmission greater than 10:1 for strong gripping power
- > Chrome vanadium electric steel, forged, oil-hardened

For especially sensitive surfaces:
plastic protective jaw covers are available as accessories for all optimised pliers wrenches

**Even better:
the optimised pliers wrench**

The new versions of the tried-and-tested pliers wrench. You will recognise them **1** by the offset jaws, **2** the laser-cut scale for pre-setting of width across flats

All advantages of the optimised pliers wrenches at a glance:

Capacity of
0.08–16 mm²

KNIPEX PreciStrip16

Automatically strips insulation – and thanks to additional zero correction, it also grips where automatic devices would otherwise fail

KNIPEX®

12 52 195

Properly stripped away:
with deft precision, strip everything from very fine to thick cables with stranded or solid conductors

Simple, precise stripping of fine stranded and solid round cables with a wide capacity range from 0.08 to 16 mm² with only one pair of pliers

Good grip provided by semi-circular grooved metal holding clamps and exact cut from parabolic stripping blade

Fine adjustable zero correction of the blade setting to special material requirements, e.g. due to large temperature differences

- > With cable cutter for stranded wire from 0.08 to 16 mm²
- > With tether attachment point, suitable for KNIPEX Tethered Tools accessories
- > Inscription area for customisation
- > With adjustable length stop for precision work repeated accurately each time
- > Comfortable operation with ergonomic dual-component handle
- > Easily replaceable blade cassette

NEW
PAT. PEND.

12 52 195

Parabolic blade separates the insulation first and then automatically pulls it back

Customisable using the inscription area

How parabolic blades work
The parabolic bulging blade pair (red) extensively encloses and cuts the insulation and is thus suitable for many flexible materials

Semi-circular grooved holding clamp for better grip that holds practically any insulation material securely in place

With cable cutter on the top side for up to 16 mm²

For special requirements, such as particularly hard or soft insulation materials, optimum fine adjustments can be made using the adjustment wheel with its tactile locking positions

KNIPEX StepCut

Additionally hardened, precision-ground blades:
lighter, cleaner cut without crushing

Innovative
step cut

Cable cutting made easy: innovative step cutting separates wires one by one to save energy

Small, light, strong: comfortable cutting without crushing and just 160 mm in size

Noticeably less effort: the gradations cut wires one after the other; cutting is up to 40 % easier than with standard cable shears of the same length!

Ergonomic handle design: optimal cutting feel even for larger cable diameters

- > Cuts multi-core stranded copper and aluminium cables up to Ø 15 mm (50 mm²)
- > Cuts solid copper and aluminium cables up to 5 x 4 mm²
- > Cuts without crushing
- > Bolted joint: precise, effortless, durable
- > Pinch guard fitted for safe work
- > Not suitable for steel wire and hard drawn copper conductors
- > Cutting edges additionally induction-hardened, cutting edge hardness at least 56 HRC
- > High-grade special tool steel, forged, oil-hardened

NEW

Tiny titan with 25-fold leveraging of hand strength – just right for round material

Heavy-duty cutting edge with recess slices through the hardest round materials in only one cutting action

Extremely high cutting performance in a convenient length of 160 mm

Small, slim head for excellent accessibility

- > Compact and powerful: cuts bolts, nails, rivets etc. up to Ø 4.8 mm
- > Cutting edge hardness approx. 64 HRC
- > Less physical effort due to efficient lever action mechanism
- > Slippage of cutting material reduced by lasered cutting edge
- > With gripping surface below the joint for gripping and pulling wires from Ø 1.0 mm
- > Blades with recess for easier cutting of larger cross-sections thanks to better leverage close to the fulcrum
- > Chrome vanadium heavy-duty steel, forged, multi stage oil-hardened

71 31 160

Ideal for round materials: the KNIPEX CoBolt® with recess

The recess enables round materials to be placed closer to the joint when cutting. The improved leverage makes easy work of cutting through even very hard materials with less effort.

Available in lengths of
160 mm – item no. 71 31 160
200 mm – item no. 71 31 200
250 mm – item no. 71 31 250

Ideal for flat materials: the KNIPEX CoBolt® without recess

The cutting edge without the recess provides optimum cutting for flat materials. The lasered cutting edge also keeps the cutting material from slipping.

Available in lengths of
160 mm – item no. 71 01 160
200 mm – item no. 71 01 200

Pipe Cutter for plastic composite pipes

90

Clean cut: cuts aluminium composite and plastic pipes with great precision

For cutting composite pipes from Ø 12 - 25 mm

Clean, smooth and burr-free cut surfaces

Easily exchangeable blades

- > With opening spring and locking device
- > Ergonomically shaped handles made of fibreglass-reinforced plastic
- > Not suitable for cutting cables
- > Blade made of high-strength special grade steel, oil-hardened and tempered

Replaces the need for sets of metric and imperial spanners

Smooth jaws for damage free installation of plated fittings - working directly on chrome!

- > Also excellent for gripping, holding, pressing and bending workpieces
- > Zero backlash jaw pressure prevents damage to edges of sensitive components
- > Push the button for adjustment on the workpiece
- > Parallel jaws give a more solid grip; its design allows flexible adjustment of all widths up to the specified maximum size
- > Reliable catching of the hinge bolt: no unintentional shifting
- > The ratchet type principle allows quick and easy tightening and release of all bolted connections
- > Lever transmission greater than 10 : 1 for strong gripping power
- > Chrome vanadium electric steel, forged, oil-hardened

86 03 125
The mini pliers wrench:
Particularly suitable for working on small bolted connections. Excellent access in very confined areas.

86 03 400: For opening widths up to 85 mm / 3 3/8"

KNIPEX Cobra® QuickSet

Hightech Water Pump Pliers

87
2

Fully open, push, grab!

Additional fast adjustment on the workpiece by sliding the pliers handle

- > Combines the proven, reliable locking of the hinge bolt with an additional push function which makes it easier to work in very confined and inaccessible areas
- > The adjustment directly on the workpiece is possible by simply sliding the pliers handle
- > Reliable locking of the hinge bolt with the first workload. The gripping width of the pliers is then fixed and can only be adjusted by pressing the button.
- > To re-activate the sliding function, the hinge bolt must be released by pressing the push button and the pliers must be completely opened again
- > Chrome vanadium electric steel, forged, multi stage oil-hardened

Tile Breaking Pliers

91

For the precise cutting (breaking) of tiles and porcelain stoneware after scoring with a tile cutter

Ideal for long and thick tiles

- > Ideal protection of tiles against damage: replaceable positioning jaw made from soft, stable plastic
- > Great crushing force thanks to 10-fold increase of manual force
- > Easily adjusted to the required tile thickness at the press of a button
- > Chrome vanadium electric steel, forged, oil-hardened

Plastic positioning jaw: tilting for a clean break line and optimum protection of the tiles against damage

Needle-Nose Combination Pliers

08

Handy use when working in confined areas thanks to slim head design and pointed jaws (anti-twist)

Gripping surfaces with special convex contour on one side for secure gripping of flat parts

Milled groove in the gripping area permits small parts such as nails, pins and bolts to be held and pulled

- > The reliable and diverse combination pliers when out and about
- > Easy cutting thanks to the high leverage joint
- > With cutting edges for soft, medium-hard and hard wire
- > Long service life and stable tips
- > Forged from special high grade tool steel, manifold oil-hardened

Pliers for Electrical Installation

13

6 functions in one pair of pliers

Multifunctional pliers for the electrical installation; to grip flat and round material, for bending, deburring, cutting cable, stripping and crimping wire ferrules

- > Smooth surfaces near the tips grip single cores without damaging them; serrated gripping surfaces and pipe grip for gripping flat and round material
- > Clear-cut outside edge on the jaw for working on flush-mounted junction boxes and deburring feed-through holes
- > Stripping holes for conductors of 0.75 – 1.5 mm² and 2.5 mm²
- > Crimp die for wire ferrules 0.5 – 2.5 mm²
- > Cable shears with (induction-hardened) precision cutting edges for copper and aluminium cables up to 5 x 2.5 mm²/Ø 15 mm
- > Slim dimensions for easy access
- > Bolted joint: precise, zero backlash operation of pliers
- > High-grade special tool steel, forged, multi stage oil-hardened

13 91 200 / 13 92 200 / 13 96 200

- > The intelligent latching mechanism enables you to «grip» without opening the pliers. The cutting edge remains closed and protected.

Mode of operation of straight cutters

An incision is made in the red area only.

Not suitable for highly flexible or armoured insulation materials or for multi-layered insulation.

KNIPEX MultiStrip 10 Automatic Insulation Stripper

12
42

Stripping without re-adjustment from 0.03 to 10.0 mm²
 Universal blade geometry – robust and more durable
 Ideal grip design with excellent haptics
 Recessed wire cutter

- > Fully automatic adjustment to all single-, multi- and fine-stranded conductors with standard insulation throughout the entire capacity range from 0.03 to 10.0 mm²
- > No manual fine adjustment necessary
- > No damage to the conductors
- > The clamping jaws made of steel hold the cable in a way that prevents slipping without damaging the remaining insulation
- > With recessed wire cutter for Cu and Al conductors, stranded up to 10 mm² and single wire up to 6 mm²
- > Particularly smooth-running mechanics and very low weight
- > Replaceable blades block and length stop
- > Handle with soft-plastic zone for a steady grip
- > Body: plastic, fibreglass-reinforced
- > Blade: special tool steel, oil-hardened

KNIPEX TwistCut® Corrugated Pipe Cutter

90

(PAT. PEND.)

For the reliable and fast cutting of plastic corrugated pipes with the universal capacity range of diameters from 13 to 32 mm
No damage to the internal cables or pipes

- > Simple insertion, reliable and easy cutting without waste
- > Precise cut without damage thanks to unique arrangement of the cutters with side guide
- > Good accessibility thanks to slim design
- > Made of glass fibre reinforced multi-component plastic with soft gripping zone

90 22 02 SB

- > With wire stripping blades for cross-sections of 0.2/0.3/0.8/1.5/2.5/4.0 mm²
- > Location ridges (patent pending) on the 1.5 and 2.5 mm² wire stripping blades for the fast insertion of cable
- > Internal length scale for consistent stripping of cable, legible for both right and left handed users

Clean cutting edge with no damage to internal cables as the cut is always at the top of the corrugation

90 22 02 SB: Practical locator simplifies the insertion of single conductors for stripping

Also for protective pipes on aluminium composite pipes in plumbing, up to a diameter of 32 mm

Easy to use: press KNIPEX TwistCut® together, turn with slight pressure, done

KNIPEX ErgoStrip® L Universal Stripping Tool

16
95

(PATENTED)

For the fast and precise stripping of all common round and damp-proof installation cables (e.g. NYM cable 3 x 1.5 mm² up to 5 x 2.5 mm²), data cable (e.g. twisted pair) and coax cable

Innovative, ergonomic pistol grip design for easy cutting, stripping and longitudinal cut of the sheath

- > Conically slimmed down tool ends for better access in confined areas
- > Stripping device for cross-sections 0.2/0.3/0.8/1.5/2.5/4 mm²
- > Simplified insertion of single conductors for wire stripping using locating ridges
- > Easy insertion of coax and data cable thanks to opening aid
- > Multi-component design with a soft plastic zone for comfortable use and a secure grip
- > Housing made from stable glass fibre reinforced plastic

Self-Adjusting Crimping Pliers for wire ferrules

with lateral access

97
53

Square compression now additionally also for wire ferrules up to 16 mm²

- > Suitable in particular for all twin wire ferrules up to 2 x 4 mm² or 2 x AWG 12
- > Square compression for ideal contact surfaces in the clamp connection

Crimping capacity can be switched over simply from 10 mm² to 16 mm².

The small crimping pliers for wire ferrules with two major advantages for the user:

- > Automatic adjustment to the end sleeves used: This makes work easier for the professional and offers reliable and fast crimping.
- > Expanded range of applications

97 53 04

0.08 - 10 mm² + 16 mm²

PATENTED

Square compression

Proven functions

- > For crimping wire ferrules according to DIN 46228 parts 1 + 4
- > Self-adjusting adaptation to the desired wire ferrules size: no wrong crimps caused by using the wrong die
- > Repetitive, high crimping quality due to integral lock (self-releasing mechanism)
- > Tools have been set precisely (calibrated) in the factory
- > Optimum transmission of force thanks to toggle lever for fatigue-reduced operation
- > Handy shape and low weight provide high operation comfort

Expanded capacity of hexagonal crimping up to 10 mm²

- > Suitable in particular for all twin wire ferrules up to 2 x 4 mm² or 2 x AWG 12
- > Hexagonal compression for confined connection dimensions

97 53 14

PLIERS ABC – TECHNICAL BASICS

BASIC SHAPES OF THE JAWS

flat jaws

half-round jaws

round jaws

Cutting Pliers
for cutting or nipping (diagonal, centre and end cutters, carpenters' pincers etc.)

Gripping Pliers
(flat-, long-nose and water pump pliers etc.)

JOINT CONNECTIONS

Forged-in joint axle

The rivet is part of one handle (forged from one piece)
> high stability for highest strain
> long service life

Joint with inserted rivet

A proved, sturdy and precise rivet connection for all standard pliers.

Bolted joint

For particularly demanding requirements in terms of precision and smooth operation, e.g. in circlip pliers and cable shears (even the finest multi-stranded conductors have to be cut cleanly).

Combined Pliers
for cutting and gripping (combination, stork beak and radio pliers etc.)

Special Pliers
for special applications, e.g. notching or punching different types of materials (sheet-metal nibbler, tile nibbling pincers etc.)

TYPES OF JOINTS

Lap joint

The two plier halves lie on top of each other but are not milled out.

Single joint

Half the thickness in each pliers handle is milled away in the joint area so that both handles can be laid into each other.

Box joint

One handle on the pliers is slit. The other handle is pushed through this slot. This joint connection can withstand a high level of load and strain because the joint bolt is supported on both sides and the inside handle is guided on both sides.

CUTTING EDGE – TECHNICAL BASICS

Direction and position of cutting edges

Cutting edge shapes DIN ISO 5742

WIRE CLASSES

	Material examples	Type of wire	Tensile strength	
			N/mm ²	kp/mm ²
	Copper, plastics	soft	220	22
	Nail, wire pin	medium-hard	750	75
	Wire rope strand, steel wire	hard	1800	180
	Spring steel wire	piano wire	2300	230

The maximum values indicated always stay for the performance cutting conditions, when the wire is placed as near as possible to the joint.

Safety instructions

- > Each tool should only be used for its specified purpose.
- > When using cutting pliers: beware of wire ends flying off. Wear protective goggles and – if needed – gloves. Be aware of bystanders.
- > Only handles marked with the symbol 1000V are insulated.

Care Tips

A drop of oil on polished surfaces and in the joint will keep the tool in good working order and will increase the service life of your pliers.
